LONDON, June 8.—The Times of to-day refers to the fact that some of the Tory press have declined to follow the policy in regard to the Irish Church bill, determined upon by the majority at their meeting last Saturday, and trusts that the danger of a collision is past, and says that the experience of the past two days reaffirms the truth that in a direct issue the Lords must allow the national will to prevail. The present aspect indicates the passage of the bill to its second reading by a small majority.

The same paper, in an article on the French election, points to the fact that three and a half millions of Frenchmen are voting in opposition to twenty-four millions who support the Government, and whatever the relative strength of the parties may be in the Corps Legislatif, this is a significant result of universal suffrage, and is bound to influence the entire policy of the French government.

PARIS, June 7.—The result of the elections, where the ballot was necessary, was as follows: Official candidates, 27; Unofficial, 1; Independent, 1; Opposition, 15; Unknown, 17.

The result in fifteen additional elections, by ballot, has been declared; seven official and eight opposition candidates are elected. Among the successful candidates are M. M. Pissard, Latoire and Demourlin.

Last night about twelve o'clock a great crowd of people gathered in Mont-Marte district, and the police were obliged to use force in dispersing them, and several citizens were injured and a number of arrests made. The people finally returned to their homes, and quiet was restored.

A scene of disorder also occurred in front of the Hotel de Villa, in which many were injured and a large number arrested. The total number of arrests last night, in consequence of these riots, was one hundred and twenty.

The case of Miss Amanda Craig, of Cincinnati, vs. C. S. Sprague, of this city, for a breach of promise, which has been on trial before Judge Wilcox at Wheaton for several days past, was given to the jury to-day, and a verdict for Miss Craig was rendered, awarding her one hundred thousand dollars, the amount claimed by her for damages. TRUST SALES.

TRUSTEES SALE OF STORE-HOUSE and lot in Covington, Tenn.—I will on

MONDAY, JUNE 7, 1869,

Expose to public sale to the highest bidder, in said town, the store-house and lot lying on the north side of the Public Square of said town, which Wm. Hamilton formerly owned. The making it perfectly free from rust. Second, it will never give any bad taste to the water, or rust it. Third, it will never wear out, as it is put the working part out of order. Fourth, the pump working in place, will last as long as five or six years. Fifth, the valves are made of steel, and are so placed that it is impossible for them to get out of order. Sixth, the conducting pipe is manufactured of wrought iron, galvanized inside and out. Seventh, no water stands in the pipe to get warm in summer or freeze in winter, and requires no repairs. Eighth, it is the best hand pump ever invented. It will force the water from any common well or stream to the top of the highest dwelling, at the rate of twenty gallons per minute. Ninth, its whole construction is so simple and complete that it can be put up by any one. Tenth, it is the cheapest of the kind. When all its qualities are fully understood, no one will be without it. It will save its cost in insurance, and many times save valuable property.</
